

START WITH THE END IN MIND

Supporting your Apprentices in building
a showcase portfolio

What we will cover today

Supporting your Apprentices to build a showcase portfolio

- What is meant by a 'showcase portfolio'
- 4 steps to building a 'showcase portfolio'
- What is meant by 'one piece of evidence'
- Triangulation of evidence
- Example of building a 20-piece showcase portfolio (*based on the revised L3 Team Leader assessment plan*)
- Mapping the evidence used within the 'showcase portfolio'

60 minutes duration

Please pose your questions via the chat function

Recording will be available

What's Changed?

Relates to revised L3 Team Leader / Supervisor and L5 Operations / Department Manager

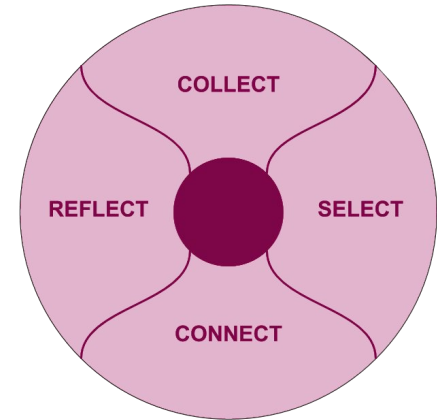

Was	Now
Usually assessed ahead of the live assessment and forms part of the overall grading decision	Must be reviewed ahead of the live assessment and is used as a baseline for the professional discussion
Covers all of the KSBs within the relevant assessment plan	Covers only the KSBs assessed within the relevant assessment method (usually the Professional Discussion)
The number of pieces of evidence and the need for a mapping of the evidence to the KSBs was not mandated	Restricted to 20 pieces of evidence and requires a mapping document that shows how each piece of evidence is mapped to the relevant KSBs

Summative vs Showcase

Traditional Summative Portfolio	Showcase Portfolio
Predominantly knowledge-based (Academic assignments, qualification workbooks, on-programme learning modules)	Predominantly skills-based (Work-based examples/activities supported by contextualisation statement & validated using witness testimonies/observations)
Evidence is automatically selected as the apprentice progresses through their on-programme learning activities	Evidence is selected by the apprentice to 'showcase' their best work and the key activities that are most relevant to them
Usually includes in excess of 50 pieces of evidence	Can be limited/adapted to meet the requirements of the assessment plan
The apprentice usually struggles to be able to recollect what is in their portfolio when questioned at live assessment	The apprentice not only knows exactly what is in their portfolio but also why, and can discuss the evidence in-depth at their live assessment

Gathering Evidence

1. **Collect** - Encourage your apprentices to collect evidence for the portfolio as they go - it will make their life easier
2. **Select** - Does the evidence collected really showcase their best work? Does it show *what they did, how they did it* and include *confirmation that they did it?*
3. **Connect** - Is it easy for their Assessor to find and see exactly what KSBs the evidence is mapped to? (Location, including page number, paragraph and/or time-stamped)
4. **Reflect** - What areas of the Standard do they still need to find evidence for? Can they explain, with confidence, what they have learned/done, and how it meets the grading descriptors within the assessment plan?

What is meant by 'one piece of Evidence'?

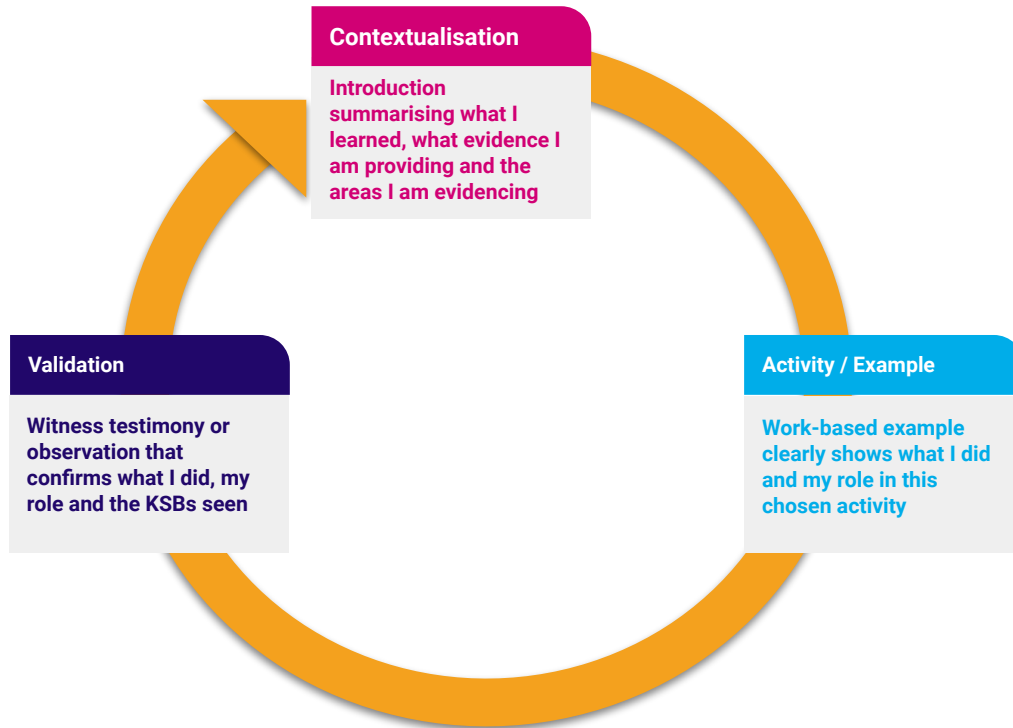

IfATE has provided the following guidance:

One piece of evidence can take either of the following 2 formats:

- 1. It could be a single thing or activity, such as a Feedback Report, a 'Thank-you email' or an observation*
- 2. It could also be a combination of 2-3 things that are all related and when combined provide full coverage of a relevant learning outcome, area or grading descriptor within the Standard*

E.g: The activity of chairing a project review meeting (S6.1, S6.2) that is supported by the following appendices/documents: a copy of the agenda/minutes (that clearly show what was the apprentice's role, the project plan/milestones report, what was discussed, what actions have been agreed), a witness testimony or observation by one of the attendees at the meeting (validating what the apprentice did, how they acted and what were the relevant KSBs that they saw demonstrated)

Triangulation of Evidence

I used what I learned to do.....

Here's what I did.....

I saw do it

Planning the Showcase Portfolio

Based on the revised assessment plan for L3 Team Leader / Supervisor:

- Needs to include about 20 pieces of evidence
 - ◆ And only cover the KSBs listed for Assessment Method 2 - The Professional Discussion
- Needs to be relevant to the individual Apprentice
 - ◆ In order for them to be able to discuss/talk about it in depth at their EPA
- Ideally should be grouped into and is relevant to the 4 KSB groups listed on pages 15 and 16 of the assessment plan
 - ◆ Building a High Performing Team
 - ◆ Project Management
 - ◆ Organisation Governance
 - ◆ Managing Self
- Needs to show what they did/learned, how they did it and validated

Example of a Showcase Portfolio

Based on the revised assessment plan for L3 Team Leader / Supervisor:

KSB Group	Grading Descriptors	Pass / Distinction	Possible Examples of Evidence
Building a high performance team K2.1 K8.2 S2.1 S2.2 S3.1 S3.2 S4.2 B2.1 B4.1	Describes how they developed a high performing and motivated team by setting a fair, consistent and impartial example; setting, monitoring and supporting operational and personal objectives; building trust and using their understanding of team dynamics, management models, emotional intelligence, active listening and learning styles; and leading by example. (K2.1, K8.2, S2.1, S2.2, B4.1)	Pass	Contextualisation statement that details what management techniques, practices and models they have used to build a high performing team, and lists the supporting work based examples they are using to evidence this KSB Group.
	Describes, with examples, when they have shared good practice with, and provided direction and constructive feedback to, their team (and more widely), including how they actively listened and were fair, consistent and impartial in their approach (S3.2, S4.2, B2.1)	Pass	
	Explains how they have built trust within and across the team, managed conflict and demonstrated effective influencing and negotiation skills. (S3.1)	Pass	3 x Work-based examples such as providing feedback to their team, when they have had to manage conflict within their team, team-building, etc
	Evaluates motivational practices and their benefits and drawbacks (e.g. recognition, reward, enrichment, consultation) and deploys them in their approach to team building. (K2.1, S2.1)	Distinction	
	Evaluates the principles of active listening and their benefits and deploys them appropriately in their approach to team management. (S4.2)	Distinction	
			Witness Testimony/Observation with links to the apprentice's work product embedded into the testimony template.
			Number of pieces of evidence used: 6

Example of a Showcase Portfolio

Based on the revised assessment plan for L3 Team Leader / Supervisor:

KSB Group	Grading Descriptors	Pass / Distinction	Possible Examples of Evidence
Project Management K6.1 K6.2 S6.1 S6.2	Explains the project lifecycle and how they have employed relevant project management tools to deliver a project against targets, taking effective actions to monitor and manage resources, risks and budget. (K6.1, K6.2, S6.1)	Pass	Contextualisation statement that includes an explanation of what project management tools they have used within their organisation and why 2 x Work-based examples from a project undertaken and/or supported such as gantt chart/project plan and project proposal;/business case which then has copies of the stakeholder analysis, risk register, budget forecast attached.
	Monitors performance and takes appropriate and timely corrective action as required to support a successful project outcome. (S6.2)	Pass	Witness Testimony from a line manager or the project manager regarding apprentices role within project and activities undertaken, etc. Number of pieces of evidence used: 4
	Evaluates how they have adapted known project management tools and approaches to suit the needs of their organisation. (S6.2)	Distinction	

Example of a Showcase Portfolio

Based on the revised assessment plan for L3 Team Leader / Supervisor:

KSB Group	Grading Descriptors	Pass / Distinction	Possible Examples of Evidence
Organisation Governance K2.2 K7.1 K7.2 S7.1 B4.3	Explains their application of organisational governance, compliance and performance management techniques to deliver value for money, and monitor budgets to ensure costs do not overrun. (K2.2, K7.1, K7.2, S7.1)	Pass	Contextualisation statement that includes a summary of their organisational values, a detailed description of at least 2-3 key organisational governance/regulations, and explains the impact these policies/regulations have on them and their team, and how they ensure compliance
	Describes how they operate within their organisation's values (B4.3)	Pass	Copy of end of year appraisal - that includes confirm from the apprentice regarding how they have operated within their organisation's values. <i>(Ideally this document will have been signed off or include a statement from the apprentice's line manager so can also then act as validation.)</i>
	Evaluates the importance of organisational governance and compliance from a corporate, legal and budgetary standpoint, and describes how appropriate governance and HR practices can positively impact their team and the wider organisation. (K2.2, S7.1, B4.3)	Distinction	2 x Work-based examples that evidences how the apprentice has used at least 2 performance management techniques to deliver value for money and monitored budgets to ensure costs have not overrun. Validation statement from line manager that confirms apprentice's role in compliance and monitoring budgets Number of pieces of evidence used: 5

Example of a Showcase Portfolio

Based on the revised assessment plan for L3 Team Leader / Supervisor:

KSB Group	Grading Descriptors	Pass / Distinction	Possible Examples of Evidence
Managing Self K8.1 S8.1 K9.1 S9.1 B2.2 B4.2	Explains what the implications of unconscious bias are, and the approaches they take to promote inclusivity within their workplace. (K8.1)	Pass	Contextualisation statement - that includes a summary of the models/theories they have learned about on-programme and the approaches they now use when making decisions about time management/prioritisation, and in their own self-development Work-based example, such as the recruitment/onboarding of a new starter, that clearly shows how they were unbiased in their choice of candidate and how they made them feel included once they joined the team. Work-based example that shows how they manage their own and their team's time/work priorities Feedback received from other (such as a 360/end of year appraisal) and how they then evaluated this feedback to identify own areas of strengths/weakness plus development opportunities - ideally signed off and/or validated by their line manager Copy of their Personal/Professional Development Plan which includes evaluation of learning gained. type of learning, etc Number of pieces of evidence used: 5
	Describes how they are open and honest in their approach to planning, time management and managing themselves and others, and how they reflect upon, seek and apply feedback on their own performance when creating their personal development plan, and managing their work and performance (K9.1, S8.1, S9.1, B2.2, B4.2)	Pass	
	Describes how they have used known management tools and theories to improve to their performance based upon feedback received. (S8.1)	Pass	

Mapping the Evidence

Would the showcase portfolio pass the *“If this was the first time I saw it”* test?

- It is now a requirement to include a mapping document with the portfolio that clearly shows how the evidence maps to the relevant KSBs within the assessment method
- The CMI Independent Apprenticeship Assessor (IAA) is only able to review the evidence that has been mapped
- The Apprentice has to reference and be able to talk in-depth about the evidence submitted in their portfolio during their professional discussion
- It is not the responsibility of the IAA to ‘guess’ what areas or KSBs the evidence is supporting if it has not been mapped or cannot be easily identified

Mapping the Evidence

CMI has created templates for all of the EPA Standards that we support as the EPAO

Example new template for revised L3 Team Leader /Supervisor

PORTFOLIO EVIDENCE LOCATOR - L3 TLS v1.2

Apprentice name:				Employer:		
ULN (if known):				Training Provider:		
KSB Group	KSB reference	CMI reference	Learning Outcome	Evidence Reference	File Location	Time Stamp / Paragraph Number
Building a high performance team	K2.1	F1	Understand people and team management models including team dynamics and motivation techniques.			
	K8.2	H2/H3/H4	Understand learning styles, feedback mechanisms and how to use emotional intelligence			
	S2.1	F5	Able to build a high-performing team by supporting and developing individuals, and motivating them to achieve.			
	S2.2	F6/F7	Able to set operational and personal goals and objectives and monitor progress, providing clear guidance and feedback.			
	S3.1	G5/G6/G7	Building trust with and across the team, using effective negotiation and influencing skills, and managing any conflicts.			
	S3.2	G8/G9	Able to input to discussions and provide feedback (to team and more widely), and identify and share good practice across teams.			
	S4.2	D8	Use of active listening and provision of constructive feedback.			

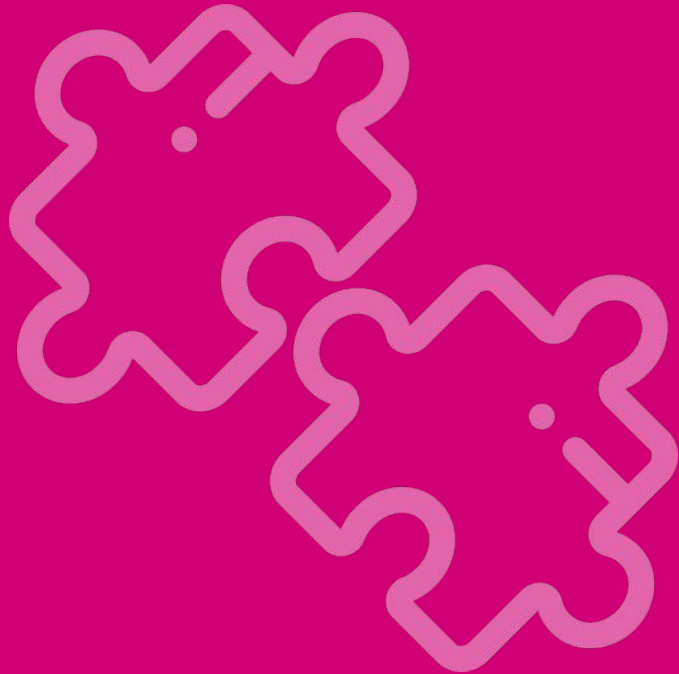

What is a 'Showcase Portfolio'?

It is a collection of evidence that demonstrates the apprentice's knowledge, skills and behaviours against the relevant areas/KSB Groups within the Standard, and:

- Enables your apprentices to showcase their best work, and the activities that are most relevant to them and their role
- Includes some form of contextualisation (not reflection) that links their skills-based and behavioural evidence to what they have learned on-programme and and what they did within the workplace during the time they were on their apprenticeship
- Is validated using witness testimonies and/or observations
- Needs to be clearly mapped to the KSBs within the relevant assessment method for their Standard

THANK YOU

→ Any questions?

Example Mapping Activity

For you to use with your Apprentices

MAPPING 101

What you will need

- A copy of the Apprenticeship Standard that the apprentice is studying that shows which KSBs need to be evidenced within their showcase portfolio
- A copy of the relevant CMI Portfolio Evidence Mapping document

MAPPING 101

DOES THE CHOSEN EVIDENCE PASS THE 'IF THIS WAS THE FIRST TIME I SAW IT?' TEST

- CMI expects you, the Apprentice, to have pieces of evidence mapped to all of the relevant knowledge, skills and behaviours as set out in the Assessment Plan
- Your CMI Independent Apprenticeship Assessor (IAA) is only able to assess/review against the evidence that has been mapped and has been presented to them
- It is not the responsibility of the IAA to find your evidence if it has not been mapped or cannot be easily identified

ACTIVITY

MAPPING OF EVIDENCE

- You are going to be given 3 x different scenarios
- Identify which Grading Descriptor Group(s) this activity could map to?
- Using the Evidence Locator - identify from each scenario which knowledge, skills and behaviours could be evidenced by the activity?
- What other pieces of work-based evidence could you include to support this activity
 - ◆ *Think triangulation - I did, here's the proof, and XX can confirm I did it*
 - ◆ *Think breadth, depth and complexity - Is there enough to meet the both the pass and distinction grading descriptors?*

ACTIVITY - SCENARIO #1

THE PROJECT PROPOSAL DOCUMENT

You created a document that was used during the planning stage of your EPA work-based project. It multiple pieces of key information including:

- Who the key project team members are (*Note: the project is being sponsored by their Director, the apprentice is the Project Manager and their line manager is the Project Leader*)
- A summary business case that explains why the project is required, what the key deliverables are
- How the project relates to their organisation's vision, mission and key strategic objectives
- What the project's projected key milestones are, and expected dates
- A summary of the project's budget that list key expenditure
- A list of the potential risks and how they plan to mitigate against them
- A list of all of the key stakeholders that they have identified as needing to support the project and what their role is for each stage of the project

ACTIVITY - SCENARIO #2

THE EVENT

You have been asked by your manager to present at the next all staff briefing about the launch of a new service that will reduce waiting times for your customers from 3-4 weeks to under 7 days.

- The service:
 - ◆ Will be managed by their team
 - ◆ Requires a change from a manual multi-touchpoint process to one that is fully automated and requires limited intervention
 - ◆ Means their team has to create login accounts for each customer
- Early indications are that the majority of your customers are happy about saving so much time but are also anxious that they might not get as much help as before.
- You have received feedback from your line manager plus other colleagues about how well you did which is why you have chosen to use your presentation slides plus speaker notes in their portfolio

ACTIVITY - SCENARIO #3

TEAM MEETING RE KPIs

Your organisation is preparing for its annual end of year performance reviews and has just notified key managers of their KPIs for the coming year. Your line manager has now asked you to communicate these to their team. *(Note: Last year a number of employees complained that they did not understand why they had been set their objectives and had no idea how they could make a difference within the organisation.)* You:

- Have chosen to make this topic the main focus of your next team meeting as you want everyone to know what the KPIs are and how they relate to their department, their team and their roles.
- Plan to use this opportunity to provide information and guidance on what your team can do to prepare for their end of year reviews, including how they should use this opportunity to not only showcase their key achievements but also highlight their concerns.
- Wants your team to make one of their objectives for this coming year about self-development, and plan to ask them to consider what this might mean to them and how they/the organisation can support them
